Class Matter, Under Act of Congress of March 3, 1879.

## A MAGNIFICENT PRESENT MADE

### August Dreier Donates St. Louis Alumni Clubhouse.

August Dreier's magnificent gift to the Alumni Association of St. Louis College—a completely-appointed clubhouse on Union street—was formally dedicated last evening. There were present to receive this splendid gift from the donor practically every alumnus of the college who resides on this island, and a considerable number from other islands of the group. His Lordship the Bishop of Zeugma was present and blessed the gift, expressing the hope that it might both bless the giver and the recipients. There were brief addresses by the principal of the college, Brother Henry, by members of the Alumni Association and by W. O. Smith, representing the trustees of the Bishop Estate, and Frank Thompson, who passed upon the legal matters in connection with the gift.

The clubhouse, for such it is that last night passed into the possession of the St. Louis Alumni Association, is the building on Union street almost opposite the Pacific Club. It has been entirely remodeled and refitted to accommodate it to its present use. The building is a two-story structure formerly belonging to Mrs. Robertson. The first floor contains billiard and card rooms, an office for the club and the association, and shower baths and gymnasium accessories in connection with the indoor gymnasium, and a larger outdoor gymnasium just back of the building but partially roofed in. Upstairs there is a large assembly room occupying the larger part of the second floor. There are cloak rooms and a reading room and janitor's quarters, and a splendid lanai running the length of one side of the assembly room and practically adding its dimensions to the assembly room.

August Dreier, who has more than once shown his interest in the college and its alumni, has fitted the entire building for its present purpose and presents it as a leasehold at nominal rental to the Alumni Association. The lease is for twenty-five years, with the privilege of renewal for twenty-five years more, and a further privilege of renewal for forty-nine years. The rental is ten dollars a year.

The building was handsomely decorated for last night's occasion. American and Hawaiian flags, with the emblem of the association, furnished the bunting and color decorations. In the assembly room, which is paneled both as to walls and ceiling, a handsomely-framed portrait of the donor, August Dreier, occupies the place of honor. It is flanked on one side by a framed portrait of His Lordship the Bishop of Zeugma, and on the other side by a portrait of Brother Bertram, who was for more than twenty years the principal of the college. Later in the evening a portrait of James L. Holt, the president of the association under whose administration such good fortune came to it, was added to those already there. The building itself is to be known as Dreier Hall, in honor of the giver.

At the exercises last evening there were present, besides the alumni and friends, the members of the faculty of the college, many of the clergy of the Catholic Mission, and many of the county and Territorial officials. James L. Holt, president of the association, presided and, after an overture by the orchestra, gave an account of the origin and objects of the association. At the same time he gave some account of the gift which was to be formally received and expressed the appreciation which was felt for the giver.

The formal presentation was made by Mr. Dreier himself. He said that he was very happy to have something to give, and that it was one of the greatest pleasures of his life to give to the young men who composed the association, this clubhouse which he hoped would be of great and lasting benefit to many. He presented the deed conveying the property to President Holt. The "Vesper Hour" was then sung as a duet by Mr. W. Welsh and Master W. Ziegler and then Bishop Libert gave the blessing of the Church to the building and its purposes. Speaking a word he said that he was particularly interested in young men and that it was therefore a source of especial satisfaction to him that this gift from a man whose heart was still young had been made to men young in years and active in life.

On behalf of the College itself, Brother Henry, the principal, made a short address. In this he defined the purpose of the College to be to develop character as well as to cultivate the mind, and to seek to build up strong bodies as the fit tabernacles of pure souls.

A stirring oration on the "Duties of

NO LESE MAJESTE IN MADRID.

—Oregonian.

## Barney Joy Pitched Twelve Innings Game

(Associated Press Cablegram.)

SAN FRANCISCO, June 16.—Barney Joy pitched for San Francisco in a twelve innings game in the Coast League yesterday. San Francisco lost by a score of one run to two.

Pole had been discovered; he discovered it himself, having been there in 1863. In the same year also he discovered the now famous Nome beach and gold fields. But being at the time under the orders of Captain Tripp, and not being able to convince Captain Tripp that what he had found was gold, he left it all where he found it. Later, however, he won an automobile in a voting contest, winning it, he was proud to say against the St. Louis College "Alumny."

The announcement was made that Mr. Dreier, in addition to his gift of the clubhouse, had given a sum of \$650 for the purposes of the association. Admiral Beckley, it was also announced, had given \$250 to a fund for the higher education of worthy alumni at mainland institutions.

Besides the addresses there were songs by the Alumni Chorus, the Knockabout Club and the Alumni Quintet, and a baritone solo, "The Day is Done" (Balfre), by William Ellis. Master W. Gough rendered a violin solo, and he, C. Baldwin and A. Christian a violin trio of Hawaiian airs.

The program closed with a selection by the orchestra, and following this

## BAR ASSOCIATION'S ANNUAL DINNER SET

A. Lewis Jr., Frank E. Thompson and E. M. Watson, the Hawaiian Bar Association's committee on the annual dinner, have selected the place and date. It will be at the Alexander Young Hotel next Friday evening and expectations are of a larger festive gathering than any heretofore held by the association. The membership extends to all the court seats of the Territory and it is hoped that many members from the other islands will attend the dinner.

Six months' water rates will be delinquent July 15.

refreshments were served. The annual meeting of the association will be held at 10 o'clock this morning in the clubhouse.

## DUMA DISSOLVED AND DISORDER ONCE MORE SPREADS IN RUSSIA

(Associated Press Cablegrams.)

ST. PETERSBURG, June 16.—Seven hundred arrests were made in this city yesterday and a drastic suppression of the press has been effected.

The Duma has been dissolved because of the refusal of the members to condemn the actions of the terrorists, their delay in ratifying the budget, for the revolutionary spirit displayed among them and their failure to exclude from parliament the members of the Social Democrat party accused of conspiring against the Czar.

A new election has been called for September 14.

## UNIVERSAL PEACE IS DEEMED UNATTAINABLE

THE HAGUE, June 16.—The Peace Conference opened yesterday with two hundred and thirty-nine envoys, representing forty-nine countries, present. Relidoff, a Russian envoy, was chosen presiding officer. In his speech he declared that universal peace is unattainable and failed altogether to mention the question of limited armament. His speech was a bitter disappointment to the pacifists.

## JAPAN LOOKS FOR A SPEEDY SETTLEMENT

TOKIO, June 16.—Minister Hayashi had a conference yesterday with the cabinet ministers and with the elder statesmen of the Empire. He announced that the views of both the American and Japanese governments were in accord regarding the San Francisco troubles and that the Japanese government trusted that Washington would furnish a speedy solution of the difficulty.

## BUSINESS MEN APPEAL TO ROOSEVELT.

CHICAGO, June 16.—The Boards of Trade throughout the country are appealing to President Roosevelt to take steps to prevent the threatened strike of the commercial telegraphers.

## CHINESE REBELS ROUTED.

HONGKONG, June 16.—Two regiments of troops met and routed the insurgent army at Patszetan yesterday.

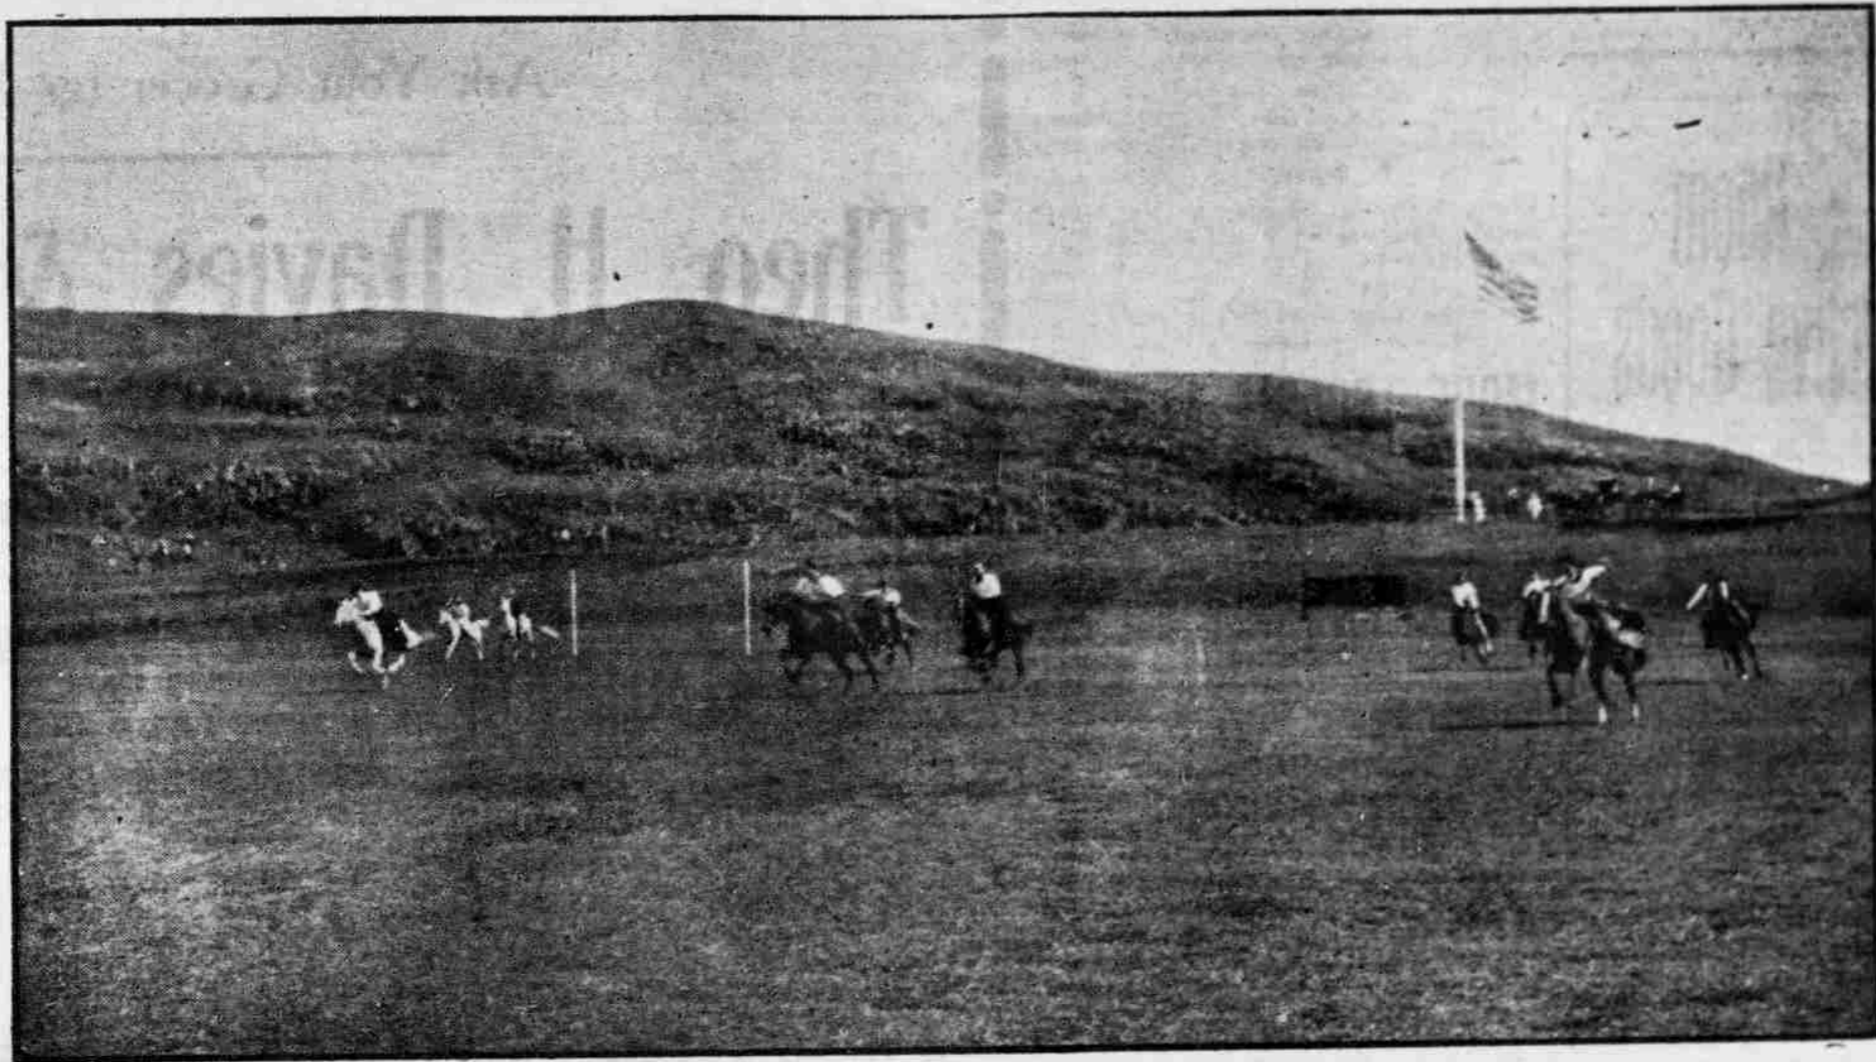

## CHEWED BY A SHARK AT SALINA CRUZ

Sea bathing is a great pleasure to the colony at Salina Cruz, according to a letter from Nelson Lansing, received by his father, Theo. M. Lansing of this city, in the last mail. But it has its drawbacks also, for the sharks there seem to be more ravenous than those found by the Young Brothers in Honolulu harbor. Young Lansing writes as follows:

"We have been having great pleasure bathing in the surf here and every

afternoon about 4 o'clock Mr. Anderson, our chief officer, and myself have been going in. Yesterday we were in by ourselves and just as we came out the Engineer's department were going in. We returned to the ship and had just sat down to supper when one of the men came to the mess room and asked for bandages and medicine, as one of the furnacemen had been bitten by a shark. There had been a dozen or more men in the water at the time and this man, whose name is Frank Funda, an Austrian, was about five feet from shore when he called for help; the boys thought he was just playing when the next wave washed him up on the beach and they could see his bleeding hand and foot and went to his assistance. Others in the water at the time a little further out were called in immediately and it is wonderful that they escaped this monster. This poor man's right foot was chewed up so badly that it will be necessary to amputate it; his right arm was badly torn just above the wrist and his fingers bitten through the joints nearest the hand so that they were hanging by threads of flesh; his left thigh was badly slashed as though done with a butcher knife, there being about sixteen cuts, all deep, and about 200 stitches were necessary to close these wounds up. I was one of about six who assisted the doctor and must say that the sight was something terrible; this poor young fellow, only twenty-three years of age and big and strong, was cut up most awfully but it is hoped he will pull through. The shark must have been very hungry, for he came so close to shore that the waves washed him up several times, and those who saw him say he was from nine to twelve feet long. While Mr. Anderson and myself were in I said, we had better not go too far out as there may be a shark around, and to think that one did come in only a few minutes afterwards! Everyone is so worked up over this disaster that they will not venture near the water."

Judge De Bolt yesterday sentenced the seventeen Chinese gamblers convicted before him on Friday to pay fines of \$10 each. They had appealed from fines of \$50 each imposed on them by District Magistrate Whitney. The defendants were allowed to go on their own recognizance until Monday, when they are to appear in court and either pay their fines or move for a new trial.
